Product Description:

Tucaí[®]
图彩

Dye Sublimation Ink is a specially formulated ink that is designed to provide high quality and low odor printing for Epson printers. It is a popular choice among professionals in the printing industry due to its superior performance and versatility.
Smell: Low Odor

One of the most significant features of Dye Sublimation Ink is its low odor. Unlike traditional inks that can have a strong and unpleasant smell, this ink has been specially developed to have a low odor, making it ideal for use in indoor and enclosed spaces.
Durability: Good

Dye Sublimation Ink is known for its excellent durability, making it a top choice for printing projects that require long-lasting results. The ink is resistant to fading, smudging, and water damage, ensuring that your prints will maintain their vibrant colors and high quality for years to come.

Suitable Printer: Epson i3200/ 4720/ DX5/ 5113/ Ricoh G5/ G6/ Seiko/ Konica

Dye Sublimation Ink is compatible with a wide range of Epson printers, including the popular models such as Epson i3200, 4720, DX5, and 5113. It is also suitable for use in Ricoh G5 and G6 printers, as well as Seiko and Konica printers. This versatility makes it an ideal choice for professionals who work with multiple types of printers.

Application: Light Box Advertising, Advertising Stand

Dye Sublimation Ink is a versatile ink that can be used for a variety of applications. It is particularly well-suited for printing light box advertising and advertising stands, as it produces vibrant and long-lasting prints that are perfect for catching the eye of potential customers.

Volume: 1000ML/bottle

Dye Sublimation Ink is available in a convenient 1000ML/bottle size, making it a cost-effective option for high volume printing projects. This large volume also ensures that you won't run out of ink in the middle of an important project, allowing you to work without interruptions.

Sublimation Thermal Ink

In addition to being a high quality and low odor ink, Dye Sublimation Ink is also a sublimation thermal ink. This means that it is specifically designed to work with sublimation transfer paper and heat transfer machines, making it an essential tool for creating personalized and custom printed items such as t-shirts, mugs, and bags.

Overall, Dye Sublimation Ink is a top choice for professionals and businesses looking for a high quality, low odor, and versatile ink for their Epson printers. With its durability, compatibility, and various applications, it is a must-have for anyone in the printing industry.
